

AcciClaim|WorkComp™

AcciClaim|WorkComp relieves the burden of getting paid for workers' compensation accident claims

AcciClaim|WorkComp Eliminates the Hassle

Workers' compensation accident claims require extensive resources and expertise to get paid accurately, and typically represent less than 1% of claims. Hospitals rarely devote the resources necessary to work them properly, resulting in lost revenues and higher AR days. With AcciClaim|WorkComp, hospitals can rest assured that each workers' compensation claim is managed correctly, resulting in full and accurate reimbursement with minimal administrative burden.

AcciClaim|WorkComp provides you with a complete solution for workers' compensation accident claims management. We get the most from each claim, billing correctly up front and aggressively managing all underpayments and appeals. Plus, we simultaneously ensure compliance and timely filing by meeting all state and federal regulations and workers' compensation carrier and TPA requirements.

Benefits of choosing AcciClaim|WorkComp for your workers' compensation claims

AcciClaim|WorkComp provides hospitals with a single-source solution that simplifies billing for all workers' compensation accident claims. The results of our experience are clear:

- More revenue
- Fewer denials
- Fewer underpayments
- Reduced aging
- Less headaches

Improve reimbursement for Workers' Compensation claims...with much less headaches!

AcciClaim|WorkComp improves reimbursement for claims resulting from workers' compensation accidents. Our team provides comprehensive accident claims management including patient interviews, workers' compensation carrier identification and verification, and coordination and management of every claim. We work directly with workers' compensation carriers, third party administrators, and employers to manage all billing, denials, underpayments, appeals and settlement negotiations in compliance with federal and state laws. With over 150 years of experience on our team, we provide hospitals nationwide with the knowledge and experience to obtain the maximum benefits available.
